Dear Clayton High Teachers,

On Tuesday, June 25, 2019, you received a confidential survey from Mrs. Linda Edmundson, Human Resources Officer. I wanted to reassure each of you that Mrs. Edmundson and I are working together to carefully review any concerns that have been brought to our attention regarding Clayton High School. In order for us to conduct a thorough review, it is important for us to hear from anyone who may have information to share regarding any concerning matters. Please know that the survey is an anonymous tool that allows individuals to feel comfortable in sharing information. As stated in the directions to the survey, Mrs. Edmundson and I disabled the email collection feature to ensure anonymity. We are only focused on gathering accurate information to assist us in the review.

If you are still uncomfortable completing the survey, please know that we will gladly receive information in ways you are most comfortable such as an anonymous letter, an outside email or by other means.

A few of you have shared that you received an email from Dr. Jones asking you to not comment on this matter. Unlike commenting to the general public, please understand that sharing information with school officials is acceptable and encouraged.

Thank you, in advance, for your input.
